4. Find that acceptance into the County road system of those portions of County-owned properties proposed to be set aside for public road and highway purposes on 120th Street from Compton Avenue to Wilmington Avenue in the unincorporated community of Willowbrook is necessary for public convenience, pursuant to Section 941 of the California Streets and Highways Code.

IT IS RECOMMENDED THAT THE BOARD ACTING AS THE GOVERNING BODY OF THE CONSOLIDATED FIRE PROTECTION DISTRICT:

3. Authorize the Executive Director or his designee to execute all documents necessary to accept and incorporate into its Fiscal Year 2015-16 budget up to \$305,000 in funds from the Second Supervisorial District's Measure R Local Return Fund Budget, following approval as to form by County Counsel.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The purpose of the recommended actions is to approve the Willowbrook Area Access Improvements Project (Project) and pursue grant funding for the proposed improvements, which will enhance access in the Willowbrook area in the vicinity of the Martin Luther King, Jr. Medical Center. The proposed Project consists of streetscape improvements including new sidewalk, roadway and sidewalk reconstruction, decorative crosswalks, median and parkway landscape improvements, Low-Impact Development features, site furnishing, traffic signal upgrades, pedestrian lighting, way-finding signage, bicycle facilities, etc. These improvements will also benefit the Martin Luther King, Jr. Multi-Service Ambulatory Care Center.

The limits of the Project area are as follows:

1. Wilmington Avenue from Imperial Highway to 120th Street.
2. 119th Street from Wilmington Avenue to Willowbrook Avenue.
3. 120th Street from Compton Avenue to Wilmington Avenue.

The purpose of the recommended actions is to also (1) set aside portions of County-owned properties for public road and highway purposes on 120th Street from Compton Avenue to Wilmington Avenue (Set-Aside) and accept them into the County road system; and the Set-Aside area will become part of the public right of way to be known as 120th Street; (2) allow the Consolidated Fire Protection District of Los Angeles County (District) to quitclaim a portion of real property to the County; and (3) authorize the Community Development Commission of the County of Los Angeles (Commission) to grant an easement for public road and highway purposes to the County for the aforementioned Project.

The construction phase of the Project will be partially reimbursed by State of California Active Transportation Program (ATP) grant funds. ATP guidelines require agencies to, when possible, partner with the California Conservation Corps or a Local Conservation Corps. The agreement with the Conservation Corps must be executed prior to the California Transportation Commission's allocating funding for the construction phase of the project. Delegating to the Director of Public Works or her designee the authority to enter into an agreement with the California Conservation

Corps or a Local Conservation Corps for installation of landscaping throughout the project area will allow for an accelerated process for project delivery that will help ensure timely funding allocation.

Implementation of Strategic Plan Goals

The Countywide Strategic Plan directs the provision of Integrated Services Delivery (Goal 3). The recommended actions will enrich the lives of the County's residents by enhancing access in the Willowbrook area with streetscape improvements.

FISCAL IMPACT/FINANCING

There will be no impact to the County General Fund.

The total Project cost is estimated to be \$5,800,000. This Project will be administered utilizing Federal-aid funding under the ATP under existing County/State Master Agreement No. 76078. Under this program, Federal-aid funds allocated to local agencies are used to finance a portion of the Project cost.

Funding for this Project is included in the Second Supervisorial District's Transportation Improvement Program in the Proposition C Local Return Fund and Measure R Local Return Fund Fiscal Year 2015-16 Budgets. Funds to finance the Project's future costs will be requested through the annual budget process.

There is no monetary consideration associated with the Set-Aside or Quitclaim.

The total cost to acquire the easements is \$390,915, which includes approximately \$305,000 for easement rights and landscaping improvements to the Commission and \$85,915 to Kimco Pacific Holdings, Inc., the owner of the tenant improvements, for the relocation of light standards and appurtenances. Funding for the easements is included in the Second Supervisorial District's Measure R Local Return Fund Budget.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The Set-Aside area for public road and highway purposes contains approximately 4.09 acres. The Quitclaim area contains approximately 1,386 square feet. Both are shown on the maps that are attached to the enclosed set-aside resolution and Quitclaim Deed, respectively.

California Streets and Highways Code Section 941 provides that no public or private road shall become a County highway until and unless the Board of Supervisors, or its designee, by appropriate resolution has caused the road to be accepted into the County road system.

The Department of Public Works, on behalf of the County, the underlying fee holder, is requesting the Board to set aside portions of said properties, as identified in the enclosed resolution, and accept them into the County road system.

The District's interest was acquired by the Quitclaim Deed recorded on January 6, 1977, as Document No. 77-19814, of Official Records, in the office of the Registrar-Recorder/County Clerk of the County. The quitclaim of fee title from the District to the County is for the existing roadway and sidewalk facilities within 120th Street. The Fire Chief has reviewed and approved the Quitclaim Deed of fee title to the County. The conveyance between the District and the County is authorized by Health and Safety Section 13861. The Quitclaim Deed document has been approved by County

Counsel as to form and will be recorded. Board approval is required for acquisitions exceeding \$75,000, pursuant to County Code 2.18.025.

The Commission owns Parcels 16-127RE, 16-128RE, 16-129RE, and 16-130RE located on Wilmington Avenue. The Commission will execute a Road Deed and all necessary documents to grant an easement on the aforementioned parcels to the County for the purposes described above, following approval as to form by County Counsel.

The proposed County improvements on the easement will include but are not limited to widening the existing sidewalk, installation of a second row of street trees, landscaping, sprinkler systems, driveway aprons, curbs and gutters, pedestrian lighting, and way-finding signage. The design of the improvements will preserve street access to the remaining Commission-owned site.

The agreement with the California Conservation Corps or a Local Conservation Corps for the Project will be reviewed and approved, as to form, by County Counsel prior to execution.

ENVIRONMENTAL DOCUMENTATION

The road and streetscape improvement portion of the Project is categorically exempt from the provisions of the California Environmental Quality Act (CEQA), pursuant to Sections 15301(b), (c), and (h); 15302(b); 15303(e); 15304(b); and 15305 of the CEQA Guidelines and Class 1(e); Class 1(j); Class 1(x), subsections 4, 9, 10, 13, 14, 18, 19, and 22; Class 2(a); Class 3(b); Class 4(c); and Class 5 of the Environmental Reporting Procedures and Guidelines previously adopted by the Board. These exemptions provide for existing facilities of both investor-owned and publicly owned utilities used to provide public services; maintenance and minor alterations to existing landscaping; modification of existing traffic signal system; parkway tree planting; median beautification; installation of sprinkler systems; reconstruction of existing roadway pavement, curbs and gutters, sidewalk, drive aprons, and drainage structures in place, including the removal of those trees that are the cause of the damage requiring the reconstruction and the removal of up to five other trees within any 500-foot-long road segment; new street drainage facilities that do not discharge onto private property; new highway channelization including raised island; maintenance of existing roadway facilities; replacement and reconstruction of structures with a new structure of substantially the same size, purpose, and capacity; construction of new accessory structures; new gardening or landscaping; and minor alterations in land use limitations.

On February 28, 2012, Agenda Item 7, the Board certified that the Final Program Environmental Impact Report for the 2012 Bicycle Master Plan is in compliance with CEQA and that it reviewed and considered the information presented within the Final Program Environmental Impact Report before it approved the Bicycle Master Plan, found that the Final Program Environmental Impact Report reflected the independent judgment and analysis of the County, determined that the significant adverse effect of the projects included in the Bicycle Master Plan have been reduced to an acceptable level as outlined in the Findings of Fact, adopted the Mitigation Monitoring and Reporting Program, and made a finding pursuant to Public Resources Code Section 21081.6 that the Mitigation Monitoring and Reporting Program is adequately designed to ensure compliance with the mitigation measures during the Bicycle Master Plan implementation.

On March 13, 2012, the Board adopted the 2012 Bicycle Master Plan to replace the 1975 Master Plan of Bikeways. The installation of Class II bicycle lane on 120th Street between Compton Avenue and Wilmington Avenue was considered in the Final Program Environmental Impact Report for the 2012 Bicycle Master Plan.

A one-time fee of \$2,919 was paid on March 2, 2012, at the filing of the first Notice of Determination for the Final Program Environmental Impact Report certification. In accordance with Title 14, Section 753.5(e)(3), of the California Code of Regulations, only one fee is required when an existing certified Environmental Impact Report is used for multiple project approvals that would result in no additional effect to fish and wildlife. Upon the Board's approval of the Willowbrook Area Access Improvements Project, Public Works will file a Notice of Determination in accordance with 21152(a) of the Public Resources Code as well as a Notice of Exemption for the proposed road and streetscape improvement and pay the required processing fee in the amount of \$75 for each notice.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

These actions will not have a significant impact on current services.
